| Annual Flowers (4 packs)             | Notes                       | Type         | Description   |
|--------------------------------------|-----------------------------|--------------|---|
| <b>Crackerjack Marigold</b>          | Yellow and Orange           |              | Majestic 4" blooms in tangerine orange, rich gold, and lemony yellow. They make radiant long-lasting cut flowers and are easy to grow .                       |
| <b>Queen Sophia French Marigold</b>  | Orange                      | Edible       | 2-3" blooms are orange with yellow edges on 10-12" plants. Attracts beneficial insects.   |
| <b>Tangerine Gem Marigold</b>        | Orange                      | Edible       | Tiny, fragrant, deep orange flowers. Delicious citrus taste. Long-blooming, compact plants.   |
| <b>Benary's Giant Zinnias</b>        | Pink, Orange, Yellow        | Edible       | Large, double blossoms approximately 4-5" in diameter, in multiple, magnificent colors. Vigorous all-season producers; holds up well in summer rain and heat. |
| <b>Jazzy Mix Zinnias</b>             | Red, Orange, Yellow         | Edible       | Attractive, fully-double and semi double blooms are 1-2" in size. Bright, earthy tones; Bi-color blooms   |
| <b>Zinderella Peach Zinnia</b>       | Pale Pink                   | Edible       | Large double and single flowers with peach petals and dark centers bloom summer through frost with deadheading on 40-50" stalks.                              |
| <b>Autumn Beauty Sunflower</b>       | Yellow, Bronze, Purple      |              | Bold, beautiful flowers up to 8" across on 6-8' multi-branching stems.. Bright yellow, bronze, and purple shades with some bi-colors.                         |
| <b>Big Smile Sunflower</b>           | Yellow                      |              | Dwarf, branching sunflower looks great in small beds and containers. 3-6" blooms are bright golden-yellow with a black center.                                |
| <b>Mammoth Grey Stripe Sunflower</b> | Yellow                      | Edible Seeds | Classic giant blooms average 12 " across and produce tasty seeds. Grows up to 10' tall.   |
| <b>Double Click Cosmos</b>           | Light Purple to Pink        |              | Hardy, tolerant of drought and low fertility, subject to very little disease or pest pressure. Attracts bees. 3-4' tall.                                      |
| <b>Monstrosum Mix Strawflower</b>    | Pink, White, Gold           |              | 2-3.5' tall, great flowers for drying. Tolerant of many growing conditions.   |
| <b>Bachelor Buttons</b>              | Blue, Purple, Pink, White   | Edible       | Easy to grow, great for cut-flowers and garden beds. Wiry stems. 3' tall.   |
| <b>Swiss Giant Pansy</b>             | Yellow, Blue, Purple, White | Edible       | Prolific, large velvety flowers. Compact plants, great for containers, long bloom time.   |
| <b>Alaska Mix Nasturtiums</b>        | Red, Orange, Gold           | Edible       | Variegated foliage. Flowers have a peppery taste great in salads.   |
| <b>Zeolights Calendula</b>           | Rust & Peach                | Medicinal    | Peach petals with dark rusty center and underside. Blooms all summer. Petals are beautiful in salads and often used in skin care. Often self seeds.           |
| <b>Sweet Alyssum</b>                 | White                       | Medicinal    | Dense clusters of small white flowers attract many pollinators. Low and fast growing.   |

| Perennial Flowers           | Notes            | Type               | Description  |
|-----------------------------|------------------|--------------------|--|
| <b>Purple Coneflower</b>    | Purple           | Native Medicinal   | A popular perennial with smooth, 2-5 ft. stems and long-lasting, lavender flowers with center cone. Also known as Echinacea.                     |
| <b>Brown Eyed Susan</b>     | Yellow           | Native             | Large yellow flowers with dark centers bloom from summer until hard frost. Seed heads provide food for birds. 4-5' tall.                         |
| <b>Yarrow</b>               | White            | Medicinal          | Clusters of white flowers sit atop delicate, lacelike foliage. Fragrant blooms are used medicinally and are great for pollinators.               |
| <b>Bee Balm</b>             | Lavender         | Medicinal          | Unique, large, spiky flowers attract butterflies and hummingbirds. Fragrant leaves are used in teas.   |
| <b>Lance-leaf Coreopsis</b> | Yellow           | Native             | Yellow daisy-like flowers bloom continuously when deadheaded. 2-3' tall.   |
| <b>Dyer's Coreopsis</b>     | Yellow and Brown | Native Dye Plant   | Abundant yellow flowers with dark red centers. Self seeds readily. Used in dyeing. 2-3' tall   |
| <b>Butterfly Weed</b>       | Orange           | Pollinator Habitat | Milkweed species prized for its clusters of bright orange flowers that attract butterflies and hummingbirds. 1-2' tall.                          |
| <b>Common Milkweed</b>      | Pink             | Pollinator Habitat | Large spheres of highly fragrant pink-purple flowers in summer on 1-2' stalks. An important food source for monarch butterfly larvae.            |
| <b>Swamp Milkweed</b>       | Rose             | Pollinator Habitat | Cousin to common milkweed, with narrow leaves and fragrant rose flowers. Grows 2-5' tall. An important food source for monarch butterfly larvae. |

| Basil                   | Notes                          | Type | Description  |
|-------------------------|--------------------------------|------|--|
| <b>Italian Basil</b>    | Resistant to Fusarium          |      | Standard Italian basil. Large plant with shiny, dark green leaves. Sweet flavor & high yields.           |
| <b>Rutgers Devotion</b> | Strong downy mildew resistance |      | Genovese type that is compact, but highly productive. Large leaves, sweet and spicy aroma.               |
| <b>Red Rubin</b>        | Purple                         |      | Dark purple, 3" leaves. Great flavor. Can be used in teas.   |
| <b>Spicy Globe</b>      | Tiny leaves                    |      | Miniature variety, great for containers. Grows in rounded, bush shape. Strong and slightly spicy flavor. |
| <b>Thai</b>             | Purple and green leaf          |      | 2" green leaves and purple stems. Sweet, anise-like flavor great for Thai food.                          |

| Basil                    | Notes                          | Type     | Description   |
|--------------------------|--------------------------------|----------|---|
| <b>Mrs. Burns' Lemon</b> | Small Leaves                   | Heirloom | Medium-sized bright green leaves; intense lemony fragrance and flavor.  |
| <b>Holy Basil</b>        | Also known as Tulsi            |          | Used in Thai food and teas, digestive and immune support.   |
| <b>Pesto Perpetuo</b>    | Variegated white to green leaf |          | Bright green leaves with cream and light green borders. Sweet, Italian basil scent and taste. Slow to bolt, rarely flowers! |
| <b>African Blue</b>      | Very disease resistant         |          | Beautiful purple green coloring. Can be used in flower arrangements as well as culinarily. Perennial if brought indoors.    |
| <b>Cinnamon Basil</b>    |                                |          | Green leaves with violet stems and purple flowers. Sweet cinnamon aroma is good in bouquets or for culinary use.            |

| Perennial Herbs                   | Notes                | Type                  | Description   |
|-----------------------------------|----------------------|-----------------------|---|
| <b>Chives</b>                     | Eaten fresh or dried |                       | Tubular leaves. Delicate onion flavor. Delicious flowers!   |
| <b>Garlic Chives</b>              | Attracts Pollinators |                       | Leaves used for their garlic onion flavor. Flowers are great for attracting butterflies.                |
| <b>Oregano, Greek</b>             |                      |                       | Essential for Italian food. Strong aroma and flavor. Very hardy.  |
| <b>French Thyme</b>               | Upright              |                       | Good flavor and yield, winter hardy.  |
| <b>Creeping Thyme</b>             | Creeping             |                       | Ground cover. Edible leaves and light purple flowers.   |
| <b>Silver Edge Lemon Thyme</b>    | Upright              |                       | Variegated leaves. Tasty lemon flavor and fragrance.  |
| <b>Lavender, Provence</b>         | Scent deters pests   |                       | Compact habit. Fragrant purple flowers. Winter-hardy.   |
| <b>Lavender, White Provence</b>   | Scent deters pests   |                       | Same as Provence, but with white flowers. Winter-hardy.   |
| <b>Berggarten Sage</b>            | Attracts pollinators |                       | Fuzzy, rounded leaves on shrub-like plant. Purple blooms in early summer.                               |
| <b>Golden Variegated Sage</b>     | Attracts pollinators |                       | Green oval leaves with yellow edges. Culinary and pollinator use. Deer resistant.                       |
| <b>French Tarragon</b>            | Use fresh or dried   | Short-lived Perennial | Thin, vining stems with delicate leaves. Anise flavor.  |
| <b>Kentucky Colonel Spearmint</b> | Fast growing         |                       | Great for tea, sauces, and salads. Vigorous spreading habit - plant in container to keep under control. |
| <b>Peppermint</b>                 | Fast growing         |                       | Great for teas and garnishes. Vigorous spreading habit.   |
| <b>Catnip</b>                     | White Flowers        |                       | The purrrfect plant for your pet. May grow to 4 feet tall. Good addition to teas.                       |

| Perennial Herbs | Notes                   | Type                  | Description   |
|-----------------|-------------------------|-----------------------|---|
| Lemon Balm      | White flowers in summer |                       | Vigorously spreading plant. Strong lemon flavor for tea.  |
| Feverfew        | White flowers           | Short-lived Perennial | Prolific and easy to grow with abundant small, white, daisy-like flowers. Leaves are used medicinally.                      |
| Marshmallow     | White and Pink flowers  |                       | This plant has been eaten and used medicinally for centuries. 3-4 foot stems with velvety leaves and hollyhock-like flowers |

| Annual Herbs              | Notes                         | Type                           | Description  |
|---------------------------|-------------------------------|--------------------------------|--|
| Lemon Verbena             | Great for tea                 | Will not overwinter most years | 12-24" shrub-like plant. Leaves have strong lemon aroma and flavor.  |
| Italian Flat Leaf Parsley |                               |                                | Classic parsley. Upright, productive variety. Good flavor. Can be used fresh or dried                            |
| Curly Parsley             | Tolerates heat and cuttings   |                                | The texture of the ruffled leaves holds up well in salads, or great for a garnish                                |
| Cilantro                  | Self Seeds                    |                                | Essential for many dishes. Leaves are called cilantro, seeds are called coriander. Flowers are edible too!       |
| Fernleaf Dill             | Self seeds                    |                                | Dwarf plant, 26-32". Very slow to bolt.  |
| Bouquet Dill              | Self seeds                    |                                | Good production of seeds, flowers & leaves.  |
| Bronze Fennel             | Self seeds                    |                                | Bronze feathery leaves and stalks are anise flavored. Flowers and seeds are flavorful too! Good for pollinators. |
| Arp Rosemary              | Upright                       | Will not overwinter most years | Classic rosemary. Upright plant with blue flowers. Pine-scented, resinous leaves.                                |
| Blue Rain Rosemary        | Creeping                      | Will not overwinter most years | Fragrant rosemary with a creeping growth habit and blue flowers. Good for containers.                            |
| Pineapple Sage            | Use for cold drinks or salads | Annual in our area             | Light green leaves are pineapple scented. Showy red flowers that pollinators love.                               |
| Stevia                    | Sweet!                        | Annual in our area             | Surprisingly sweet leaves- used to sweeten teas and drinks in place of sugar.                                    |
| Vietnamese Coriander      | Creeping                      | Annual                         | Cilantro flavored leaves are good for salads and flavoring dishes  |

| Annual Herbs             | Notes | Type               | Description  |
|--------------------------|-------|--------------------|--|
| <b>Curry Helichrysum</b> |       | Annual in our area | Fragrant silvery leaves are good for potpourri and used medicinally. Clusters of yellow flowers in summer.               |
| <b>Chamomile, German</b> | White | Medicinal          | Popular tea plant. Harvest and dry the flowers to make a soothing herbal tea. Does well in pots. Can grow up to 3' tall. |

| Spring Vegetables          | Notes                           | Type      | Description  |
|----------------------------|---------------------------------|-----------|--|
| <b>Millenium Asparagus</b> | Resistance to rust and fusarium | Perennial | Good variety for heavy soils, begin harvesting second year.  |
| <b>Winterbor Kale</b>      | Hardy to very cold temps.       | Annual    | 24-36" plant with curly blue-green leaves. Produces spring through late fall.                            |
| <b>Lacinato Kale</b>       | Also called Dino kale           | Annual    | 18-24" plant with dark green wrinkled leaves. Leaves are sturdy yet tender.                              |
| <b>Red Russian Kale</b>    | Hardy to very cold temps        | Annual    | Green, toothed leaves with purple veins are tender, beautiful, and great for eating in salads or cooked. |
| <b>Champion Collards</b>   | Hardy to cold temps             | Annual    | Compact plants are slow to bolt and have large, tender leaves.   |
| <b>Green King Broccoli</b> | Side shoots harvestable         | Annual    | Vigorous plants bear thick blue-green domed heads. Withstands heat well.                                 |
| <b>Bright Lights Chard</b> | Rainbow Colors                  | Annual    | Multi-colored stems with glossy green leaves. Leaves & stems edible.                                     |
| <b>Gourmet Lettuce Mix</b> | Mix of colors                   | Annual    | Unique mix of shapes and colors. Good shelf life.  |
| <b>Arugula</b>             | Peppery leaves                  | Annual    | Spicy salad green. Tender leaves. Cold tolerant.   |
| <b>Red Veined Sorrel</b>   | Cold hardy                      | Perennial | Bright green leaves with maroon veins and a bright, lemon flavor great in salads and soups.              |

| Perennial Fruit               | Notes    | Type                    | Description  |
|-------------------------------|----------|-------------------------|--|
| <b>Seascape Strawberry</b>    | Red      | Everbearing             | Flowers and fruit all season. The berries are large, prolific, and have good flavor. Does well in containers |
| <b>Jewel Strawberry</b>       | Red      | June bearing            | Compact variety with excellent flavor. Berries ripen in June. Disease Resistant to leaf spot.                |
| <b>Heritage Red Raspberry</b> | Red      | Primocane Everbearing   | Firm, flavorful berries ripen twice- a moderate harvest in July and a heavier yield September to frost.      |
| <b>Double Gold Raspberry</b>  | Peach    | Primocane Everbearing   | Productive plants bear juicy, blush colored fruit with excellent flavor. Summer and Fall harvest.            |
| <b>Jewel Black Raspberry</b>  | Black    | Floricane Summerbearing | Sturdy canes produce big harvests of richly flavored berries in early July                                   |
| <b>Duke Blueberry</b>         |          | Early Season            | Large, tangy and sweet berries ripen in late May. Prefers acidic soil.                                       |
| <b>Blueray Blueberry</b>      |          | Mid Season              | Extra large, very sweet berries ripen in July. Good pollinator for other varieties.                          |
| <b>Jersey Blueberry</b>       |          | Late Season             | Large, light blue berries resist cracking. Ripens in August. Prefers acidic soil.                            |
| <b>Victoria Rhubarb</b>       | Heirloom |                         | Red and green stalks are great for cooking and baking with good texture and a tart apple-citrus flavor.      |

| Summer Vegetables                    | Notes         | Type            | Description   |
|--------------------------------------|---------------|-----------------|---|
| <b>Spineless Beauty Zucchini</b>     | Green         | Annual          | Dark green zucchini, bush-like plant  |
| <b>Yellow Crookneck</b>              | Yellow        | Annual          | Garden favorite known for buttery flavor and firm texture. Yield consistently over a long period of time.               |
| <b>Waltham Butternut Squash</b>      | Winter Squash | Annual Heirloom | Large fruits have small seed cavities and smooth, sweet flesh. Great for storing. Most widely grown heirloom butternut. |
| <b>Marketmore 76 Cucumber</b>        | Slicing       | Annual          | Productive, dark green, uniform 8-9" long slicing cucumbers.  |
| <b>Little Leaf Pickling Cucumber</b> | Pickling      | Annual          | The gold standard for pickling cucumbers! Can be harvested large or small. Prolific and disease resistant.              |

| Summer Vegetables               | Notes                   | Type   | Description   |
|---------------------------------|-------------------------|--------|---|
| <b>Mouse Melons</b>             | Vining                  | Annual | Also called Mexican Sour Gherkin or Cucamelons, these climbers produce fruits that look like tiny watermelons and taste like sweet, lemony cucumbers. |
| <b>Luffa Gourd</b>              | For drying              | Annual | Grow your own bath sponges! Attractive vines produce a bounty of large gourds that can be dried for use.  |
| <b>Sugar Baby Watermelon</b>    | Super sweet<br>Heirloom | Annual | Widely adapted heirloom variety. Solid, dark green on the outside with a bright red, firm flesh. 8 to 10 pound fruit.                                 |
| <b>Aunt Molly Ground Cherry</b> | Yellow                  | Annual | Small, sweet fruits with a papery husk. Drops to the ground when ripe! Great in salads, pies or preserves.  |
| <b>Toma Verde Tomatillo</b>     | Green                   | Annual | Early-maturing, large, flat-round green fruits. Use in salsa. Need at least two for good pollination.   |
| <b>Purple Tomatillo</b>         | Purple                  | Annual | Prolific producer of large violet fruits that are sweeter than their green counterparts. Need two for best yield.                                     |

| Eggplant              | Notes               | Type   | Description  |
|-----------------------|---------------------|--------|--|
| <b>Fairytale</b>      | Purple and<br>White | Annual | Mini eggplant with pretty stripes, can be harvested in clusters. No bitterness, few seeds                                      |
| <b>Orient Express</b> | Asian               | Annual | Thin, 8-10" glossy black fruits. Very few seeds. Very productive.  |
| <b>Galine</b>         | Italian             | Annual | Very glossy, uniform, black fruits are 6-7" long by 3-4" in diameter. Strong plants produce early, firm fruits. High yielding. |
| <b>Ping Tung Long</b> | Asian               | Annual | Long Taiwanese variety has very tender skin and flesh and few seeds. Light purple.   |

**\* Best container varieties**

| Bell Peppers                    | Notes  | Type     | Description   |
|---------------------------------|--------|----------|---|

| <b>Trinidad Perfume Spice</b> | Mild  | Heirloom    | Yellow lantern-shaped pods have a complex, tropical flavor and mild heat. Great in salsas and stews. |

| Heirloom Tomatoes          |                |              |   |
|----------------------------|----------------|--------------|---|
| Red                        | Notes          | Type         | Description   |
| <b>Costoluto Genevese</b>  | Deeply lobed   | Large Slicer | Old Italian fluted variety known for intensely flavorful, deep red flesh. Great for eating fresh or preserving.   |
| <b>Mountain Princess *</b> | WV Heirloom    | Container    | Bright red and mildly flavored, the 8 ounce fruit is round, smooth and solid. A good short season variety that is also very productive.   |
| <b>Delicious</b>           | PA heirloom    | Large Slicer | Large, meaty tomatoes are often blemish free.   |
| Yellow                     | Notes          | Type         | Description   |
| <b>Pork Chop</b>           | Striped        | Heirloom     | True yellow with golden stripes, these beefsteaks have a sweet tomato flavor with a hint of citrus.   |
| <b>Pineapple</b>           | Red and Yellow | Heirloom     | Medium to large, variably ribbed-shoulder tomatoes are shaded yellow and red. Marbled interior. Fruity flavor and smooth texture.   |
| Orange                     | Notes          | Type         | Description   |
| <b>Jaune Flamme</b>        |                | Salad        | Staff favorite! Clusters of deep orange salad tomatoes are juicy and perfect for eating fresh.  |
| <b>Persimmon</b>           |                | Beefsteak    | Meaty tomatoes with few seeds and sweet, fruity flavor. Dependable and prolific.  |
| Pink                       | Notes          | Type         | Description   |
| <b>Arkansas Traveler</b>   |                | 6-8oz        | Deep pink when ripe, 6-8 oz. Balance of sweetness and tartness. Stands as one of the very best heirloom varieties. Does well in poor soil. Disease-resistant, indeterminate vines. *We save these seeds!* |
| <b>Rose de Berne</b>       | Pink           | Heirloom     | 4-to 8-oz fruit are a rose-pink color and have an excellent sweet flavor.   |

### Heirloom Tomatoes

| Pink                         | Notes                        | Type         | Description   |
|------------------------------|------------------------------|--------------|---|
| <b>Brandywine</b>            | Pink                         | Heirloom     | The classic heirloom tomato. Large fruits, often over 1 lb., have a deep pink skin and smooth red flesh. A medium-tall, potato-leaf plant.              |
| <b>Mortgage Lifter</b>       | WV Heirloom                  | Large slicer | Average 2 1/2 lb. Consistently wins taste-tests for its rich, sweet taste.  |
| <b>Pink Berkeley Tie Dye</b> | Dark pink with green stripes | 8-12 oz      | Compact plants produce beautiful 8-12 ounce fruit with a very sweet, rich tomato flavor.  |
| Black                        | Notes                        | Type         | Description   |
| <b>Cherokee Purple</b>       | Purple                       | Slicer       | Rich flavor and texture make this a favorite among heirloom growers. Interior ranges from purple-brown to green. Relatively short vines. Indeterminate. |
| <b>Black Krim</b>            |                              | Slicer       | Dark purple fruit are a consistent winner in taste trials. Large, juicy fruit.  |
| Green                        | Notes                        | Type         | Description   |
| <b>Green Zebra</b>           | Striped Green                | Heirloom     | High-yielding. Indeterminate. Produce 1.5-2.5" fruits. Emerald green skin, dark green vertical stripes, and gently flavorful green flesh.               |

### Hybrid Tomatoes

| Red                      | Notes             | Type              | Description   |
|--------------------------|-------------------|-------------------|---|
| <b>Big Beef</b>          | Disease resistant | Slicer<br>9-16 oz | Large, globe shaped fruits that ripen early for their size. Lots of disease resistance. Great flavor! |
| <b>New Girl</b>          | Red               | 4-6 oz            | Early semi-determinate. Fruits resist over-ripening. Require staking. Disease resistant.              |
| <b>Best Boy*</b>         |                   | 8-11oz            | Compact plants produce large, early fruit with good disease resistance. Good for containers.          |
| Pink                     | Notes             | Type              | Description   |
| <b>Martha Washington</b> |                   | 8-16 oz           | Heirloom quality tomato with adaptability to grow high yields under varied conditions                 |

**CHERRY/GRAPE**

| CHERRY/GRAPE        |               |                 |  |
|---------------------|---------------|-----------------|--|
| Red                 | Notes         | Type            | Description  |
| Supersweet 100      | Red           | Hybrid          | Hybrid Indeterminate. Resistant to verticillium wilt, fusarium wilt, and nematodes. Produces all season long   |
| Juliet              | Red           | Hybrid          | Cherry tomato sized plum tomato. Delicious tomato flavor for salads, salsa, and pasta sauce. Very disease resistant.                                       |
| Tidy Treats *       | Container     | Hybrid          | High-yielding, compact cherry tomatoes. Dwarf indeterminate.   |
| Principe Borghese * | Determinate   | Heirloom        | Italian classic for sun drying, with thick flesh and few seeds. Ripens in abundant clusters  |
| Yellow              | Notes         | Type            | Description  |
| Sunrise Bumblebee   |               | OP              | Large, oblong yellow cherry with red stripes. Sweet and tangy flavor.  |
| Orange              | Notes         | Type            | Description  |
| Sun Gold            | Gold          | Hybrid          | Exceptionally sweet, tangerine cherry tomatoes. Vigorous plants start yielding early and bear through the season but have tendency to split. Indeterminate |
| Gold Nugget*        | Gold          | Heirloom        | Compact plants yield prolific amounts of small, sweet fruits excellent for snacking.   |
| Black               | Notes         | Type            | Description  |
| Black Cherry        | Purple        | Heirloom        | Yields plentiful clusters of round tomatoes that are deep purplish brown. Flavor is juicy and sweet. Indeterminate.  |
| Indigo Cherry Drop  | Black and Red | Open Pollinated | Vigorous indeterminate with striking deep purple tops and red flesh. Large clusters of 1-2 oz fruit.   |
| Pink                | Notes         | Type            | Description  |
| Sunpeach            | Pink          | Hybrid          | Sister variety to Sun Gold - not as tangy and acidic. Pink with very sweet flavor. High yielding, resistant to cracking.                                   |
| Pink Tiger          | Striped       | Open pollinated | Elongated pink tomato with orange striping. Won our taste test at Shiloh Farm!   |

**PASTE**

| <b>PASTE</b>           |                                 |                  |   |
|------------------------|---------------------------------|------------------|---|
| <b>Red</b>             | <b>Notes</b>                    | <b>Type</b>      | <b>Description</b>  |
| <b>Roma</b>            | Determinate                     | Hybrid           | Meaty tomato, good in sauces and for dicing. Great disease resistant.   |
| <b>San Marzano</b>     | Indeterminate, resists cracking | Italian Heirloom | Classic paste tomato good for preserving. The large plants produce loads of tomatoes late in the season and need to be staked. Slightly larger than Roma            |
| <b>Amish Paste</b>     | Red Oxheart                     | Heirloom         | Popular Wisconsin heirloom first grown by Amish farmers in the 1870s. Large, extremely meaty fruits are great for sauces and other preserving. Very productive.     |
| <b>Speckled Roman</b>  | Indeterminate                   | Open Pollinated  | High-yielding variety produces meaty, oblong fruits with yellow stripes. Crack resistant.   |
| <b>Orange</b>          | <b>Notes</b>                    | <b>Type</b>      | <b>Description</b>  |
| <b>Sunrise Sauce *</b> | Determinate                     | Hybrid           | Low maintenance and very sweet. Produces high yields of smaller roma shaped fruit within a concentrated period, making it great for preserving. Good patio variety. |
