Annual Flowers (4 packs)	Notes	Type	Description
<b>Crackerjack Marigold</b>	Yellow and Orange		Majestic 4" blooms in tangerine orange, rich gold, and lemony yellow. They make radiant long-lasting cut flowers and are easy to grow .
<b>Queen Sophia French Marigold</b>	Orange	Edible	2-3" blooms are orange with yellow edges on 10-12" plants. Attracts beneficial insects.
<b>Tangerine Gem Marigold</b>	Orange	Edible	Tiny, fragrant, deep orange flowers. Delicious citrus taste. Long-blooming, compact plants.
<b>Benary's Giant Zinnias</b>	Pink, Orange, Yellow	Edible	Large, double blossoms approximately 4–5" in diameter, in multiple, magnificent colors. Vigorous all-season producers; holds up well in summer rain and heat.
<b>Jazzy Mix Zinnias</b>	Red, Orange, Yellow	Edible	Attractive, fully-double and semi double blooms are 1-2" in size. Bright, earthy tones; Bi-color blooms
<b>Autumn Beauty Sunflower</b>	Yellow, Bronze, Purple		Bold, beautiful flowers up to 8" across on 6-8' multi-branching stems.. Bright yellow, bronze, and purple shades with some bi-colors.
<b>Big Smile Sunflower</b>	Yellow		Dwarf, branching sunflower looks great in small beds and containers. 3-6" blooms are bright golden-yellow with a black center.
<b>Titan Sunflower</b>	Yellow	Edible Seeds	Classic giant blooms average 12 " across and produce tasty seeds. Grows up to 10' tall.
<b>Double Click Cosmos</b>	Light Purple to Pink		Hardy, tolerant of drought and low fertility, subject to very little disease or pest pressure. Attracts bees. 3-4' tall.
<b>Sultane Mix Strawflower</b>	Pink, Orange, Purple, Red, Yellow, White		3-4' tall, great flowers cut fresh or for drying. Tolerant of many growing conditions.
<b>Bachelor Buttons</b>	Blue, Purple, Pink, White	Edible	Easy to grow, great for cut-flowers and garden beds. Wiry stems. 3' tall.
<b>Swiss Giant Pansy</b>	Yellow, Blue, Purple, White	Edible	Prolific, large velvety flowers. Compact plants, great for containers, long bloom time.
<b>Alaska Mix Nasturtiums</b>	Red, Orange, Gold	Edible	Variegated foliage. Flowers have a peppery taste great in salads.
<b>Resina Calendula</b>	Yellow, Orange	Medicinal	Bright yellow and orange medium sized daisies used in salves and salads.
<b>Zeolights Calendula</b>	Rust & Peach	Medicinal	Peach petals with dark rusty center and underside. Blooms all summer. Petals are beautiful in salads and often used in skin care. Often self seeds.
<b>Sweet Alyssum</b>	White	Medicinal	Dense clusters of small white flowers attract many pollinators. Low and fast growing.
<b>Rocket Mix Snapdragon</b>	Red, White, Shades of Pink & Yellow	Edible	Flowers all season and attract pollinators. Can withstand a light frost.

Perennial Flowers	Notes	Type	Description
<b>Brown Eyed Susan</b>	Yellow	Native	Large yellow flowers with dark centers bloom from summer until hard frost. Seed heads provide food for birds. 4-5' tall.
<b>Lance-leaf Coreopsis</b>	Yellow	Native	Yellow daisy-like flowers bloom continuously when deadheaded. 2-3' tall.
<b>Dyer's Coreopsis</b>	Yellow and Dark Red	Native Dye Plant	Abundant yellow flowers with dark red centers. Short lived but self seeds readily. 2-3' tall.
<b>Anise Hyssop</b>	Purple	Perennial	Licorice, mint flavor; leaves and flowers used for tea and salad; attracts bees.
<b>Purple Coneflower</b>	Purple	Native Medicinal	A popular perennial with smooth, 2-5 ft. stems and long-lasting, lavender flowers with center cone. Also known as Echinacea.
<b>Polish Pastels Yarrow</b>	Pink, Yellow, White, Lavender	Medicinal	Clusters of pink, lavender, white, and yellow flowers sit atop delicate, lacelike foliage. Fragrant blooms are used medicinally and are great for pollinators.
<b>Bee Balm</b>	Lavender	Medicinal	Unique, large, spiky flowers attract butterflies and hummingbirds. Fragrant leaves are used in teas.
<b>Butterfly Weed</b>	Orange	Pollinator Habitat	Milkweed species prized for its clusters of bright orange flowers that attract butterflies and hummingbirds. 1-2' tall.
<b>Common Milkweed</b>	Pink	Pollinator Habitat	Large spheres of highly fragrant pink-purple flowers in summer on 1-2' stalks. An important food source for monarch butterfly larvae.
<b>Swamp Milkweed</b>	Rose	Pollinator Habitat	Cousin to common milkweed, with narrow leaves and fragrant rose flowers. Grows 2-5' tall. An important food source for monarch butterfly larvae.

Perennial Herbs	Notes	Type	Description
<b>Chives</b>	Eaten fresh or dried		Tubular leaves. Delicate onion flavor. Delicious flowers!
<b>Garlic Chives</b>	Attracts Pollinators		Leaves used for their garlic onion flavor. Flowers are great for attracting butterflies.
<b>Oregano</b>	Attracts Pollinators		Essential for Italian food. Strong aroma and flavor. Very hardy.
<b>French Thyme</b>	Upright		Good flavor and yield, winter hardy.
<b>Creeping Thyme</b>	Creeping		Ground cover. Edible leaves and light purple flowers.
<b>Silver Edge Lemon Thyme</b>	Upright		Variegated leaves. Tasty lemon flavor and fragrance.

Perennial Herbs	Notes	Type	Description
Lavender, Provence	Scent deters pests		Compact habit. Fragrant purple flowers. Winter-hardy.
Lavender, White Provence	Scent deters pests		Same as Provence, but with white flowers. Winter-hardy.
Garden Grey Sage	Attracts pollinators		Fuzzy, oblong leaves on bushy plants. Purple blooms in early summer.
Tricolor Sage	Attracts pollinators		Variegated grey-green leaves mingle with purple, white, and pink leaves. Culinary and pollinator use. Deer resistant.
French Tarragon	Use fresh or dried	Short-lived Perennial	Thin, vining stems with delicate leaves. Anise flavor.
Feverfew	White flowers	Short-lived Perennial	Prolific and easy to grow with abundant small, white, daisy-like flowers. Leaves are used medicinally.
Marshmallow	White and Pink flowers		This plant has been eaten and used medicinally for centuries. 3-4 foot stems with velvety leaves and hollyhock-like flowers
Spearmint	Fast growing		Great for tea, sauces, and salads. Vigorous spreading habit - plant in container to keep under control.
Peppermint	Fast growing		Great for teas and garnishes. Vigorous spreading habit.
Catnip	White Flowers		The purrrfect plant for your pet. May grow to 4 feet tall. Good addition to teas.
Catmint	Lavender		Gorgeous lavender flowers on spiky stems with green-grey leaves. Attracts bees and butterflies and is great for container gardens.
Lemon Balm	White flowers in summer		Vigorously spreading plant. Strong lemon flavor for tea.

Annual Herbs	Notes	Type	Description
Lemon Verbena	Great for tea	Will not overwinter most years	12-24" shrub-like plant. Leaves have strong lemon aroma and flavor.
Italian Flat Leaf Parsley			Classic parsley. Upright, productive variety. Good flavor. Can be used fresh or dried
Curly Parsley	Tolerates heat and multiple cuttings		The texture of the ruffled leaves holds up well in salads, or great for a garnish
Cilantro	Self Seeds		Essential for many dishes. Leaves are called cilantro, seeds are called coriander. Flowers are edible too!

Annual Herbs	Notes	Type	Description
<b>Fernleaf Dill</b>	Self seeds		Dwarf plant, 26-32". Very slow to bolt.
<b>Bouquet Dill</b>	Self seeds		Good production of seeds, flowers & leaves.
<b>Bronze Fennel</b>	Self seeds		Bronze feathery leaves and stalks are anise flavored. Flowers and seeds are flavorful too! Good for pollinators.
<b>Arp Rosemary</b>	Upright	Will not overwinter most years	Classic rosemary. Upright plant with blue flowers. Pine-scented, resinous leaves.
<b>Blue Rain Rosemary</b>	Creeping	Will not overwinter most years	Fragrant rosemary with a creeping growth habit and blue flowers. Good for containers.
<b>Pineapple Sage</b>	Use for cold drinks or salads	Annual in our area	Light green leaves are pineapple scented. Showy red flowers that pollinators love.
<b>Stevia</b>	Sweet!	Annual in our area	Surprisingly sweet leaves- used to sweeten teas and drinks in place of sugar.
<b>Chamomile, German</b>	White	Medicinal	Popular tea plant. Harvest and dry the flowers to make a soothing herbal tea. Does well in pots. Can grow up to 3' tall.
<b>Vietnamese Coriander</b>	Creeping		Cilantro flavored leaves are good for salads and flavoring dishes
<b>Marjoram</b>	Pinch to keep compact		Has a warm, sweet flavor with oval, dark green leaves. Great for drying.

Basil	Notes	Type	Description
<b>Italian Basil</b>	Resistant to Fusarium		Standard Italian basil. Large plant with shiny, dark green leaves. Sweet flavor & high yields.
<b>Rutgers Devotion</b>	Strong downy mildew resistance		Genovese type that is compact, but highly productive. Large leaves, sweet and spicy aroma.
<b>Red Rubin</b>	Purple		Dark purple, 3" leaves. Great flavor. Can be used in teas.
<b>Spicy Globe</b>	Tiny leaves		Miniature variety, great for containers. Grows in rounded, bush shape. Strong and slightly spicy flavor.
<b>Thai</b>	Purple and green leaf		2" green leaves and purple stems. Sweet, anise-like flavor great for Thai food.
<b>Mrs. Burns' Lemon</b>	Small Leaves	Heirloom	Medium-sized bright green leaves; intense lemony fragrance and flavor.

Basil	Notes	Type	Description
<b>Holy Basil</b>	Also known as Tulsi		Used in Thai food and teas, digestive and immune support.
<b>Pesto Perpetuo</b>	Variegated white to green leaf		Bright green leaves with cream and light green borders. Sweet, Italian basil scent and taste. Slow to bolt, rarely flowers!
<b>African Blue</b>	Very disease resistant		Beautiful purple green coloring. Can be used in flower arrangements as well as culinarily. Perennial if brought indoors.

Spring Vegetables	Notes	Type	Description
<b>Millenium Asparagus</b>	Resistance to rust and fusarium	Perennial	Good variety for heavy soils, begin harvesting second year.
<b>Winterbor Kale</b>	Hardy to very cold temps.	Annual	24-36" plant with curly blue-green leaves. Produces spring through late fall. 4 pack
<b>Black Magic Lacinato Kale</b>	Also called Dino kale	Annual	18-24" plant with dark green wrinkled leaves. Leaves are sturdy yet tender. Leaves are great for salads, stir-fries, and soups!
<b>Red Russian Kale</b>	Hardy to very cold temps	Annual	Green, toothed leaves with purple veins are tender, beautiful, and great for eating in salads or cooked.
<b>Champion Collards</b>	Hardy to cold temps	Annual	Compact plants are slow to bolt and have large, tender leaves.
<b>Eastern Magic Broccoli</b>		Hybrid Annual	Vigorous plants bear thick blue-green domed heads. Withstands heat well and was specifically produced for the climate of the Northeastern US.
<b>Faroo Cabbage</b>	Green	Hybrid Annual	Green cabbage heads that grow to 3lbs in weight. Slow to split. Delicious tender, thin sweet-peppery leaves.
<b>Red Express</b>	Red	Open Pollinated Annual	Compact plants yield extra early production of solid, split-resistant oval heads weighing only 2-3 pound
<b>Snow Crown Cauliflower</b>	White	Hybrid Annual	Extra early, medium sized heads. One of the easiest cauliflowers to grow.
<b>Bright Lights Chard</b>	Rainbow Colors	Annual	Multi-colored stems with glossy green leaves. Leaves & stems edible.
<b>Red Veined Sorrel</b>	Cold hardy	Perennial	Bright green leaves with maroon veins and a bright, lemon flavor great in salads and soups.

Spring Vegetables	Notes	Type	Description
Gourmet Lettuce Mix	Mix of colors	Annual	Unique mix of shapes and colors. Good shelf life.
Arugula	Peppery leaves	Annual	Spicy salad green. Tender leaves. Cold tolerant.

Fall Vegetables	Notes	Type	Description (available June/July)
Responder Spinach		Semi-Savoy	Great variety for overwintering with a beautiful deep green pigment. Ideal to add to salads. Will respond well to late or early snows.
Storage Cabbage	Green	Hybrid Annual	For both fresh use and storage. Can grow to be 4-8lbs for fall harvest even under fertility or weather stress.
Ruby Perfection Cabbage	Purple/ Red	Annual	Wonderfully vibrant and waxy cabbage with medium-sized heads. Matures in the late summer and early fall. Great purple storage cabbage!

Perennial Fruit	Notes	Type	Description
Albion Strawberry	Red	Everbearing	Flowers and fruit midsummer-October. The berries are very large, prolific, and have good flavor. Does well in containers. Disease resistant.
Jewel Strawberry	Red	June bearing	Compact variety with excellent flavor. Berries ripen in June. Disease Resistant to leaf spot.
Heritage Red Raspberry	Red	Primocane Everbearing	Firm, flavorful berries ripen twice- a moderate harvest in July and a heavier yield September to frost.
Prelude Red Raspberry	Red	Self-Pollinating	Will ripen earlier than standard varieties in early June and will supply a second smaller harvest in the fall. This coral-red juicy fruit holds up well to processing and doesn't have plentiful thorns, aiding in easy harvesting.
Double Gold Raspberry	Peach	Primocane Everbearing	Productive plants bear juicy, blush colored fruit with excellent flavor. Summer and Fall harvest.
Jewel Black Raspberry	Black	Florican Summerbearing	Sturdy canes produce big harvests of richly flavored berries in early July
Triple Crown Blackberry	Thornless	Semi-Erect Summerbearing	Tangy and sweet berries that are more effective in well-drained soil with full sun exposure.
Elderberry			Great for jellies, desserts, and jams that are ready to harvest in the Spring. Prefers moist soils and requires full sun exposure.

Perennial Fruit	Notes	Type	Description
<b>Duke Blueberry</b>		Early Season	Large, tangy and sweet berries ripen in late May. Prefers acidic soil.
<b>Blueray Blueberry</b>		Mid Season	Extra large, very sweet berries ripen in July. Good pollinator for other varieties. Prefers acidic soil.
<b>Rubel Blueberry</b>		Late Season	Large, light blue berries resist cracking and are intensely sweet and tart. Perfect for pies and muffins. Ripens in early August. Prefers acidic soil.
<b>Victoria Rhubarb</b>	Heirloom		Red and green stalks are great for cooking and baking with good texture and a tart apple-citrus flavor.

Summer Vegetables	Notes	Type	Description
<b>Spineless Perfection Zucchini</b>	Green	Annual	Dark green zucchini, the spineless plant figure makes harvesting easy. These zucchinis can be expected to grow between 6-8" in length.
<b>Lemon Sun Patty Pan Squash</b>	Yellow	Annual	Garden favorite known for buttery flavor and firm texture. Yield consistently and often blemish-free over a long period of time.
<b>Waltham Butternut Squash</b>	Winter Squash	Annual Heirloom	Large fruits have small seed cavities and smooth, sweet flesh. Great for storing. Most widely grown heirloom butternut.
<b>Marketmore 76 Cucumber</b>	Slicing	Annual	Productive, dark green, uniform 8-9" long slicing cucumbers.
<b>Little Leaf Pickling Cucumber</b>	Pickling	Annual	The gold standard for pickling cucumbers! Can be harvested large or small. Prolific and disease resistant.
<b>Mouse Melons</b>	Vining	Annual	Also called Mexican Sour Gherkin or Cucamelons, these climbers produce fruits that look like tiny watermelons and taste like sweet, lemony cucumbers.
<b>Sugar Baby Watermelon</b>	Super sweet Heirloom	Annual	Widely adapted heirloom variety. Solid, dark green on the outside with a bright red, firm flesh. 8 to 10 pound fruit.
<b>Aunt Molly Ground Cherry</b>	Yellow	Annual	Small, sweet fruits with a papery husk. Drops to the ground when ripe! Great in salads, pies or preserves.

Summer Vegetables	Notes	Type	Description
Toma Verde Tomatillo	Green	Annual	Early-maturing, large, flat-round green fruits. Use in salsa. Need at least two for good pollination.
Purple Tomatillo	Purple	Annual	Prolific producer of large violet fruits that are sweeter than their green counterparts. Need two for best yield.

Eggplant	Notes	Type	Description
Fairytale	Purple and White	Annual	Mini eggplant with pretty stripes, can be harvested in clusters. No bitterness, few seeds
Orient Express	Asian	Annual	Thin, 8-10" glossy black fruits. Very few seeds. Very productive.
Galine	Italian	Annual	Very glossy, uniform, black fruits are 6-7" long by 3-4" in diameter. Strong plants produce early, firm fruits. High yielding.
Ping Tung Long	Asian	Annual	Long Taiwanese variety has very tender skin and flesh and few seeds. Light purple.

**\* Best container varieties**

Bell Peppers	Notes	Type	Description
King of the North	Red	Heirloom	Known for producing heavy yields of good sized peppers even in short, cool seasons.
Gourmet Orange	Orange	Hybrid	Medium-large bells are easy to grow under a wide variety of conditions and have a sweet, fruity flavor.
Golden California Wonder	Yellow	Heirloom	Sweet, thick-fleshed bell peppers ripen from green to golden-yellow to deep orange.

Sweet Peppers	Notes	Type	Description
Habanada	Orange	Open Pollinated	Exceptional snacking peppers have all of the fruity and floral notes of the habanero without any of the spice
Hungarian Paprika	Drying	Heirloom	3' plants produce an abundance of peppers with deep red color and sweet, spicy flavor. Fruits keep well and are ideal for drying.
Corbaci	Orange	Heirloom	Turkish heirloom produces long, curved fruits with a unique flavor perfect for pickling or frying. Very productive plants.
Jimmy Nardello	Red	Heirloom	Beloved Italian heirloom has rich flavor and a thin skin perfect for frying or drying

Sweet Peppers	Notes	Type	Description
<b>Carmen</b>	Red	Hybrid	This Italian red pepper is sweet and great for roasting. 6" in length, 2.5" in width.
<b>Lunchbox</b>	Orange, Red, Yellow	Open Pollinated	Mix of orange, red, and yellow peppers. Small, sweet, and crunchy- perfect for snacking.
<b>Petit Marseillais</b>	Yellow	Heirloom	Delicious, sweet pepper from the south of France. Sunset orange peppers are 5" long and 2" wide and often take on a wavy shape.
<b>Shishito</b>	Green	Hybrid	Mild, thin-walled Japanese peppers great for tempura or stir frying.
<b>Candy Cane Red</b>	Red	Hybrid	Striped and elongated, thin walled snacking pepper. The longer you leave it on the plant, the sweeter it will become. Beautiful variegated foliage and striped green & white peppers that ripen red.
<b>Sweet Banana</b>	Green-Orange	Heirloom	Classic pepper used for salads, pickling, and stuffing.
<b>Round of Hungary</b>	Red	Open Pollinated	These peppers are ribbed and stout, and have a thick and sweet skin. Often used in stuffed peppers or in salads. Average size of these peppers are 2" in height and 3" in width. Mindy's favorite!

Hot Peppers	Notes	Type	Description
<b>Fish Pepper</b>	Medium	Heirloom	Baltimore heirloom is traditionally used to flavor seafood dishes. Beautiful variegated foliage and small, striped peppers with a lot of heat and flavor.
<b>Jalapeno</b>	Medium	Hybrid	Classic hot pepper, great raw and cooked for salsas, pickles and more.
<b>Poblano</b>	Mild	Hybrid	Large fruit, adapts to a variety of growing conditions. Great for stuffing. Also called ancho when fully ripened and dried
<b>Numex Big Jim Hatch</b>	Mild/Medium	Open Pollinated	New Mexican variety can grow to be up to 12" in length and 3" in width. Bright green peppers turn red as they mature and have excellent flavor to make these peppers extremely versatile.
<b>Chile de Arbol</b>	Hot	Open Pollinated	Famous for its smoky flavor with a bold heat, these 3" bold red peppers are perfect for adding flavor to oils and vinegars or for pureeing into sauces and salsas. Great for drying.
<b>Scotch Bonnet*</b>	Hot	Open Pollinated	Caribbean classic with fiery heat and a fruity flavor. Compact plants are very prolific.
<b>Red Flame Cayenne</b>	Hot	Hybrid	Heavy yields of finger-width, thin-walled red peppers are great for fresh eating or drying.

Hot Peppers	Notes	Type	Description
Hot Banana	Medium	Hybrid	Also called Hungarian Hot Wax. Smooth, thick-walled fruits are great for pickling. Well adapted for cold weather.
Jigsaw *	Medium	Heirloom	Beautiful variegated foliage in shades of cream, violet, and green with small, hot fruits that ripen to deep purple. Compact plants.
Hinkelhatz*	Hot	PA Heirloom	Pennsylvania heirloom whose name means “chicken heart.” Good for containers.
Mariano’s Calabrian	Hot	PA Heirloom	Pittsburgh Italian heirloom! Prolific, hot and flavorful peppers great for chili paste or powder.
Aji Dulce	Medium	Heirloom	Thin and crunchy peppers mature to a beautiful, shiny red hue. Can be enjoyed at any stage of maturity, but it’s flavor can sweeten as the pepper ages. Can be dried or used in soups or stews.
Biquinho*	Mild	Heirloom	“Little Beak” peppers hail from Brazil. These small yellow peppers harbor a slightly tart flavor with a hint of heat. Can be enjoyed raw or cooked, but is famous for being extremely flavorful when pickled in vinegar.
Trinidad Perfume Spice	Mild	Heirloom	Yellow lantern-shaped pods have a complex, tropical flavor and mild heat. Great in salsas and stews.
Serrano	Medium	Hybrid	High yields of dark green peppers over a long fruiting season.

Heirloom Tomatoes			
Red	Notes	Type	Description
Costoluto Genevese	Deeply lobed	Large Slicer	Old Italian fluted variety known for intensely flavorful, deep red flesh. Great for eating fresh or preserving.
Mountain Princess *	WV Heirloom Determinate	Container	Bright red and mildly flavored, the 8 ounce fruit is round, smooth and solid. A good short season variety that is also very productive.
Delicious	PA heirloom	Large Slicer	Large, meaty tomatoes are often blemish free.
Rutgers		Small Slicer	Developed specifically for the canning industry by food scientists at Rutgers’s University, 6-8oz bright red tomatoes are crack resistant and carry a hearty tomato flavor and meaty texture.

## Heirloom Tomatoes

Red	Notes	Type	Description
<b>Red Zebra</b>		Small Slicer	A beautiful red fruit with breathtaking orange stripes. Round fruits usually grow to 2.5" in circumference. Slightly tart variety. Beautiful mixed with Green Zebra.
Yellow	Notes	Type	Description
<b>Yellow Brandywine</b>		Beefsteak	Sweet and rich tasting golden heirloom with low acidity and a smooth outer skin. Usually grows to be 16 oz.
<b>Pork Chop</b>	Striped	Beefsteak	True yellow with golden stripes, these beefsteaks have a sweet tomato flavor with a hint of citrus.
<b>Pineapple</b>	Red and Yellow	Large Slicer	Medium to large, variably ribbed-shoulder tomatoes are shaded yellow and red. Marbled interior. Fruity flavor and smooth texture.
Orange	Notes	Type	Description
<b>Jaune Flamme</b>		Salad	Staff favorite! Clusters of deep orange salad tomatoes are juicy and perfect for eating fresh.
<b>Persimmon</b>		Beefsteak	Meaty tomatoes with few seeds and sweet, fruity flavor. Dependable and prolific.
Pink	Notes	Type	Description
<b>Arkansas Traveler</b>		Salad	Deep pink when ripe, 6-8 oz. Balance of sweetness and tartness. Stands as one of the very best heirloom varieties. Does well in poor soil. Disease-resistant, indeterminate vines. *We save these seeds!*
<b>Rose de Berne</b>		Small slicer	4-to 8-oz fruit are a rose-pink color and have an excellent sweet flavor.
<b>Brandywine</b>		Beefsteak	The classic heirloom tomato. Large fruits, often over 1 lb., have a deep pink skin and smooth red flesh. A medium-tall, potato-leaf plant.
<b>Mortgage Lifter</b>	WV Heirloom	Large slicer	Average 2 1/2 lb. Consistently wins taste-tests for its rich, sweet taste.
<b>Pink Berkeley Tie Dye</b>	Dark pink with green stripes	Large slicer	Compact plants produce beautiful 8-12 ounce fruit with a very sweet, rich tomato flavor.
Black	Notes	Type	Description
<b>Cherokee Purple</b>		Slicer	Rich flavor and texture make this a favorite among heirloom growers. Interior ranges from purple-brown to green. Relatively short vines. Indeterminate.

### Heirloom Tomatoes

Black	Notes	Type	Description
<b>Black Krim</b>		Slicer	Dark purple fruit are a consistent winner in taste trials. Large, juicy fruit.
Green	Notes	Type	Description
<b>Green Zebra</b>	Striped Green	Heirloom	High-yielding. Indeterminate. Produce 1.5-2.5" fruits. Emerald green skin, dark green vertical stripes, and gently flavorful green flesh.

### Hybrid Tomatoes

Red	Notes	Type	Description
<b>Big Beef</b>	Disease resistant	Large Slicer	Large, globe shaped fruits that ripen early for their size. Lots of disease resistance. Great flavor!
<b>New Girl</b>		Small Slicer	Early semi-determinate. Fruits resist over-ripening. Require staking. Disease resistant.
<b>Best Boy*</b>		Slicer	Compact plants produce large, early fruit with good disease resistance. Good for containers.
Pink	Notes	Type	Description
<b>Martha Washington</b>		Slicer	Heirloom quality tomato with adaptability to grow high yields under varied conditions

### CHERRY/GRAPE

Red	Notes	Type	Description
<b>Supersweet 100</b>		Hybrid	Hybrid Indeterminate. Resistant to verticillium wilt, fusarium wilt, and nematodes. Produces all season long
<b>Juliet</b>		Hybrid	Cherry tomato sized plum tomato. Delicious tomato flavor for salads, salsa, and pasta sauce. Very disease resistant.
<b>Tidy Treats *</b>	Container	Hybrid	High-yielding, compact cherry tomatoes. Dwarf indeterminate.
<b>Principe Borghese *</b>	Determinate	Heirloom	Italian classic for sun drying, with thick flesh and few seeds. Ripens in abundant clusters

CHERRY/GRAPE			
Yellow	Notes	Type	Description
Sunrise Bumblebee		OP	Large, oblong yellow cherry with red stripes. Sweet and tangy flavor.
Orange	Notes	Type	Description
Sun Gold		Hybrid	Exceptionally sweet, tangerine cherry tomatoes. Vigorous plants start yielding early and bear through the season but have a tendency to split. Indeterminate
Gold Nugget*	Determinate	Heirloom	Compact plants yield prolific amounts of small, sweet fruits excellent for snacking.
Black	Notes	Type	Description
Black Cherry	Purple	Heirloom	Yields plentiful clusters of round tomatoes that are deep purplish brown. Flavor is juicy and sweet. Indeterminate.
Indigo Cherry Drop	Black and Red	Open Pollinated	Vigorous indeterminate with striking deep purple tops and red flesh. Large clusters of 1-2 oz fruit.
Pink	Notes	Type	Description
Sunpeach	Pink	Hybrid	Sister variety to Sun Gold - not as tangy and acidic. Pink with very sweet flavor. High yielding, resistant to cracking.
Pink Tiger	Striped	Open pollinated	Elongated pink tomato with orange striping. Won our taste test at Shiloh Farm!

PASTE			
Red	Notes	Type	Description
Roma	Determinate	Hybrid	Meaty tomato, good in sauces and for dicing. Great disease resistant.
San Marzano	Indeterminate, resists cracking	Italian Heirloom	Classic paste tomato good for preserving. The large plants produce loads of tomatoes late in the season and need to be staked. Slightly larger than Roma
Amish Paste	Red Oxheart Indeterminate	Heirloom	Popular Wisconsin heirloom first grown by Amish farmers in the 1870s. Large, extremely meaty fruits are great for sauces and other preserving. Very productive.
Speckled Roman	Indeterminate	Open Pollinated	High-yielding variety produces meaty, oblong fruits with yellow stripes. Crack resistant.
Orange	Notes	Type	Description
Sunrise Sauce *	Determinate	Hybrid	Low maintenance and very sweet. Produces high yields of smaller roma shaped fruit within a concentrated period, making it great for preserving. Good patio variety.
