| Annual Flowers (4 packs)            | Notes                               | Type      | Description   |
|-------------------------------------|-------------------------------------|-----------|---|
| <b>Crackerjack Marigold</b>         | Yellow and Orange                   |           | Majestic 4" blooms in tangerine orange, rich gold, and lemony yellow. They make radiant long-lasting cut flowers and are easy to grow .                       |
| <b>Queen Sophia French Marigold</b> | Orange                              | Edible    | 2-3" blooms are orange with yellow edges on 10-12" plants. Attracts beneficial insects.   |
| <b>Tangerine Gem Marigold</b>       | Orange                              | Edible    | Tiny, fragrant, deep orange flowers. Delicious citrus taste. Long-blooming, compact plants.   |
| <b>Benary's Giant Zinnias</b>       | Pink, Orange, Yellow                | Edible    | Large, double blossoms approximately 4–5" in diameter, in multiple, magnificent colors. Vigorous all-season producers; holds up well in summer rain and heat. |
| <b>Jazzy Mix Zinnias</b>            | Red, Orange, Yellow                 | Edible    | Attractive, double & semi double bi-color blooms are 1-2" in size. Bright, earthy tones.  |
| <b>Autumn Beauty Sunflower</b>      | Yellow, Bronze, Purple              |           | Bold, beautiful flowers up to 8" across on 6-8' multi-branching stems.. Bright yellow, bronze, and purple shades with some bi-colors.                         |
| <b>Big Smile Sunflower</b>          | Yellow                              |           | Dwarf, branching sunflower looks great in small beds and containers. 3-6" blooms  |
| <b>Double Click Cosmos</b>          | Light Purple to Pink                |           | Hardy, tolerant of drought and low fertility, subject to very little disease or pest pressure. Attracts bees. 3-4' tall.                                      |
| <b>Monstrosum Mix Strawflower</b>   | Gold, Orange, Magenta, Pink         |           | 2-3.5' tall, great flowers for drying. Tolerant of many growing conditions.   |
| <b>Alaska Mix Nasturtiums</b>       | Red, Orange, Gold                   | Edible    | Variegated foliage. Flowers have a peppery taste, great in salads.  |
| <b>Resina Calendula</b>             | Yellow, Orange                      | Medicinal | Bright yellow and orange medium sized daisies used in salves and salads.  |
| <b>Zeolights Calendula</b>          | Rust & Peach                        | Medicinal | Peach petals with dark rusty center and underside. Blooms all summer. Petals are beautiful in salads and often used in skin care. Often self seeds.           |
| <b>Rocket Mix Snapdragon</b>        | Red, White, Shades of Pink & Yellow | Edible    | Flowers all season and attract pollinators. Can withstand a light frost.  |

| Perennial Flowers   | Notes                              | Type               | Description  |
|---|------------------------------------|--------------------|--|
| <b>Brown Eyed Susan</b><br><i>Rudbeckia triloba</i>           | Yellow                             | Native             | Branched yellow flowers with dark centers bloom from summer until hard frost. Seed heads provide food for birds. Also known as three-lobed coneflower.   |
| <b>Lance-leaf Coreopsis</b><br><i>Coreopsis lanceolata</i>    | Yellow                             | Native             | Yellow daisy-like flowers bloom continuously when deadheaded. 2-3' tall.   |
| <b>Dyer's Coreopsis</b><br><i>Coreopsis tinctoria</i>         | Yellow and Dark Red                | Native Dye Plant   | Abundant yellow flowers with dark red centers. Short lived but self seeds readily. 2-3' tall.  |
| <b>Anise Hyssop</b><br><i>Agastache foeniculum</i>            | Purple                             | Medicinal          | Long blooming 3' tall bushy plant has a sweet licorice scent and taste. Attracts bees, parasitic wasps, butterflies and hummingbirds. Vigorous self-sower.   |
| <b>Purple Coneflower</b><br><i>Echinacea purpurea</i>         | Purple                             | Native Medicinal   | A popular perennial with smooth, 2-5 ft. stems and long-lasting, lavender flowers with center cone. Also known as Echinacea.   |
| <b>Favorite Berries Yarrow</b><br><i>Achillea millefolium</i> | Pink, Peach, Pale Yellow, Lavender | Medicinal          | Clusters of flowers sit atop delicate, lacelike foliage. Fragrant blooms are used medicinally and are great for pollinators. Excellent as cut flower & for drying.   |
| <b>Lavender Bee Balm</b><br><i>Monarda fistulosa</i>          | Lavender                           | Medicinal          | Unique, large, spiky flowers attract butterflies and hummingbirds. Fragrant leaves are used in teas.   |
| <b>Lemon Mint Bee Balm</b><br><i>Monarda citriodora</i>       | Tufted purple flowers              | Medicinal          | Also called Horsemint. Great for pollinators. Numerous flowers on each stem. Citrusy leave.  |
| <b>Red Bee Balm</b><br><i>Monarda didyma</i>                  | Red                                | Edible Medicinal   | 30" bushy plant bears 1-2 whorls of red tubular flowers on each stem from mid to late summer. Also known as Oswego Tea: the Oswego Indians used the species for tea. Attractive to many species of pollinators |
| <b>Butterfly Milkweed</b><br><i>Asclepias tuberosa</i>        | Orange                             | Pollinator Habitat | Milkweed species prized for its clusters of bright orange flowers that attract butterflies and hummingbirds. 1-2' tall.  |
| <b>Common Milkweed</b><br><i>Asclepias syriaca</i>            | Pink                               | Pollinator Habitat | Large spheres of highly fragrant pink-purple flowers in summer on 1-2' stalks. An important food source for monarch butterfly larvae.  |
| <b>Rose Milkweed</b><br><i>Asclepias incarnata</i>            | Rose                               | Pollinator Habitat | Cousin to common milkweed, with narrow leaves and fragrant rose flowers. Grows 2-5' tall. An important food source for monarch butterfly larvae. Also known as swamp milkweed.                                 |

| Perennial Herbs                | Notes                   | Type                     | Description   |
|--------------------------------|-------------------------|--------------------------|---|
| <b>Chives</b>                  | Eaten fresh or dried    |                          | Tubular leaves. Delicate onion flavor. Delicious flowers!   |
| <b>Garlic Chives</b>           | Attracts Pollinators    |                          | Leaves used for their garlic onion flavor. Flowers are great for attracting butterflies.                |
| <b>Oregano</b>                 | Attracts Pollinators    |                          | Essential for Italian food. Strong aroma and flavor. Very hardy.  |
| <b>French Thyme</b>            | Upright                 |                          | Good flavor and yield, winter hardy.  |
| <b>Silver Edge Lemon Thyme</b> | Upright                 |                          | Variegated leaves. Tasty lemon flavor and fragrance.  |
| <b>Creeping Thyme</b>          | Ground cover            |                          | Lavender blooms, drought tolerant   |
| <b>Lavender, Provence</b>      | Scent deters pests      |                          | Compact habit. Fragrant purple flowers. Winter-hardy.   |
| <b>Lavender, White</b>         | Scent deters pests      |                          | Same as Provence, but with white flowers. Winter-hardy.   |
| <b>Common Sage</b>             | Attracts pollinators    |                          | Fuzzy, slender leaves on bushy plants. Purple blooms in early summer.                                   |
| <b>French Tarragon</b>         | Use fresh or dried      | Short-lived<br>Perennial | Thin, vining stems with delicate leaves. Anise flavor.  |
| <b>Spearmint</b>               | Fast growing            |                          | Great for tea, sauces, and salads. Vigorous spreading habit - plant in container to keep under control. |
| <b>Peppermint</b>              | Fast growing            |                          | Great for teas and garnishes. Vigorous spreading habit.   |
| <b>Catnip</b>                  | White<br>Flowers        |                          | The purrrfect plant for your pet. May grow to 4 feet tall. Good addition to teas.                       |
| <b>Lemon Balm</b>              | White flowers in summer |                          | Vigorously spreading plant. Strong lemon flavor for tea.  |

| Annual Herbs                     | Notes                                   | Type                              | Description   |
|----------------------------------|---|-----------------------------------|---|
| <b>Lemon Verbena</b>             | Great for tea                           | Will not overwinter<br>most years | 12-24" shrub-like plant. Leaves have strong lemon aroma and flavor.                   |
| <b>Italian Flat Leaf Parsley</b> |   |                                   | Classic parsley. Upright, productive variety. Good flavor. Can be used fresh or dried |
| <b>Curly Parsley</b>             | Tolerates heat and<br>multiple cuttings |                                   | The texture of the ruffled leaves holds up well in salads, or great for a garnish     |

| Annual Herbs                | Notes                         | Type                              | Description  |
|-----------------------------|-------------------------------|-----------------------------------|--|
| <b>Cilantro</b>             | Self Seeds                    |                                   | Essential for many dishes. Leaves are called cilantro, seeds are called coriander. Flowers are edible too!               |
| <b>Fernleaf Dill</b>        | Self seeds                    |                                   | Dwarf plant, 26-32". Very slow to bolt.  |
| <b>Bouquet Dill</b>         | Self seeds                    |                                   | Good production of seeds, flowers & leaves.  |
| <b>Bronze Fennel</b>        | Self seeds                    |                                   | Bronze feathery leaves and stalks are anise flavored. Flowers and seeds are flavorful too! Good for pollinators.         |
| <b>Arp Rosemary</b>         | Upright                       | Will not overwinter most years    | Classic rosemary. Upright plant with blue flowers. Pine-scented, resinous leaves.  |
| <b>Blue Rain Rosemary</b>   | Creeping                      | Will not overwinter most years    | Fragrant rosemary with a creeping growth habit and blue flowers. Good for containers.                                    |
| <b>Pineapple Sage</b>       | Use for cold drinks or salads | Annual in our zone                | Light green leaves are pineapple scented. Showy red flowers that pollinators love.                                       |
| <b>Stevia</b>               | Sweet!                        | Annual in our zone                | Surprisingly sweet leaves- used to sweeten teas and drinks in place of sugar.  |
| <b>Chamomile, German</b>    | White                         | Medicinal                         | Popular tea plant. Harvest and dry the flowers to make a soothing herbal tea. Does well in pots. Can grow up to 3' tall. |
| <b>Vietnamese Coriander</b> | Creeping                      |                                   | Cilantro flavored leaves are good for salads and flavoring dishes  |
| <b>Marjoram</b>             | Pinch to keep compact         |                                   | Has a warm, sweet flavor with oval, dark green leaves. Great for drying.   |
| <b>Lemongrass</b>           | Can be used fresh or dried    | Grow in pot to overwinter indoors | Tropical lemon flavored herb, thick fleshy stems. 3' grassy clumping plant needs full sun.                               |
| <b>Roselle Hibiscus</b>     | Beautiful flowers             | Very tender                       | Delicious in teas, syrups and jams. Leaves are cooked in curries & stews.  |

| Basil                | Notes                 | Type | Description  |
|----------------------|-----------------------|------|--|
| <b>Italian Basil</b> | Resistant to Fusarium |      | Standard Italian basil. Large plant with shiny, dark green leaves. Sweet flavor & high yields. |
| <b>Red Rubin</b>     | Purple                |      | Dark purple, 3" leaves. Great flavor. Can be used in teas.                                     |

| Basil                   | Notes                          | Type | Description  |
|-------------------------|--------------------------------|------|--|
| <b>Spicy Globe</b>      | Tiny leaves                    |      | Miniature variety, great for containers. Grows in rounded, bush shape. Strong and slightly spicy flavor.                               |
| <b>Thai</b>             | Purple and green leaf          |      | 2" green leaves and purple stems. Sweet, anise-like flavor great for Thai food.  |
| <b>Holy Basil</b>       | Also known as Tulsi            |      | Used in Thai food and teas, digestive and immune support.  |
| <b>Pesto Perpetuo</b>   | Variegated white to green leaf |      | Bright green leaves with cream and light green borders. Sweet, Italian basil scent and taste. Slow to bolt, rarely flowers!            |
| <b>African Blue</b>     | Very disease resistant         |      | Beautiful purple green coloring. Can be used in flower arrangements as well as culinarily. Perennial if brought indoors.               |
| <b>Prospera Compact</b> | Disease resistant              |      | Compact slow-bolting hybrid plant highly resistant to downy mildew and Fusarium. Excellent for containers. Traditional Genovese aroma. |

| Spring Vegetables                | Notes                           | Type          | Description   |
|----------------------------------|---------------------------------|---------------|---|
| <b>Millenium Asparagus</b>       | Resistance to rust and fusarium | Perennial     | Good variety for heavy soils, begin harvesting second year.   |
| <b>Darkibor Kale</b>             | Hardy to very cold temps        | Annual        | 24-36" plant with curly dark green leaves. Produces spring through late fall.   |
| <b>Black Magic Lacinato Kale</b> | Also called Dino kale           | Annual        | 18-24" plant with dark green wrinkled leaves. Leaves are sturdy yet tender. Leaves are great for salads, stir-fries, and soups!               |
| <b>Red Russian Kale</b>          | Hardy to very cold temps        | Annual        | Green, toothed leaves with purple veins are tender, beautiful, and great for eating in salads or cooked.                                      |
| <b>Top Bunch Collards</b>        | Hardy to cold temps             | Annual        | Tall, productive plants have large, slightly savoyed leaves.  |
| <b>Eastern Magic Broccoli</b>    |                                 | Hybrid Annual | Vigorous plants bear thick blue-green domed heads. Withstands heat well and was specifically produced for the climate of the Northeastern US. |
| <b>Purple Sprouting Broccoli</b> | Pinching recommended            | Hybrid Annual | Abundant, concentrated side-shoot yields of purple buds and purple-green stems  |
| <b>Snow Crown Cauliflower</b>    |                                 | Hybrid Annual | Extra early, medium sized heads. One of the easiest cauliflowers to grow.   |
| <b>Bright Lights Chard</b>       | Rainbow Colors                  | Annual        | Multi-colored stems with glossy green leaves. Leaves & stems edible.  |

| Spring Vegetables          | Notes                                     | Type                   | Description   |
|----------------------------|---|------------------------|---|
| <b>Red Veined Sorrel</b>   | Cold hardy                                | Perennial              | Bright green leaves with maroon veins and a bright, lemon flavor great in salads and soups.                 |
| <b>French Sorrel</b>       | Lemony leaves can be used fresh or cooked | Perennial              | Long green leaves with lemony flavor will provide greens in early spring and late fall; plants will spread. |
| <b>Gourmet Lettuce Mix</b> | Mix of colors                             | Annual                 | Unique mix of shapes and colors. Good shelf life.   |
| <b>Arugula</b>             | Peppery leaves                            | Annual                 | Spicy salad green. Tender leaves. Cold tolerant.  |
| <b>Corvair Spinach</b>     | Downy mildew resistance                   | Annual, may overwinter | Spring/fall/winter; dark green leaves that can be eaten fresh or cooked                                     |
| <b>Horseradish</b>         | Low maintenance                           | Perennial              | Plant in the spring, harvest in the fall. Can be divided every couple years to reduce woodiness in roots.   |

| Perennial Fruit                | Notes     | Type                       | Description   |
|--------------------------------|-----------|----------------------------|---|
| <b>Albion Strawberry</b>       | Red       | Everbearing                | Flowers and fruit midsummer-October. The berries are very large, prolific, and have good flavor. Does well in containers. Disease resistant.  |
| <b>Jewel Strawberry</b>        | Red       | June bearing               | Compact variety with excellent flavor. Berries ripen in June. Disease Resistant   |
| <b>Prelude Red Raspberry</b>   | Red       | Junebearing                | Will ripen earlier than standard varieties in early June and will supply a second smaller harvest in the fall. This coral-red juicy fruit holds up well to processing and doesn't have plentiful thorns, aiding in easy harvesting. |
| <b>Double Gold Raspberry</b>   | Peach     | Summer & fall              | Productive plants bear juicy, blush colored fruit with excellent flavor.  |
| <b>Triple Crown Blackberry</b> | Thornless | Semi-erect                 | Large berries, very productive. Vigorous plants. Very winter hardy. Self pollinating.   |
| <b>Elderberry</b>              |           | Requires 2 for pollination | Great for jellies, desserts, and jams that are ready to harvest in the Spring. Prefers moist soils and requires full sun exposure.  |
| <b>Jostaberry</b>              | Thornless |                            | Cross between a gooseberry & black currant. Great for fresh eating, pies, juice & jams.   |
| <b>Victoria Rhubarb</b>        | Heirloom  |                            | Red and green stalks are great for cooking and baking with good texture and a tart apple-citrus flavor.   |
| <b>Chicago Hardy Fig</b>       |           | Self Pollinating           | Can be grown in a container, ripens late summer, hardy figs for our area  |

| Summer Vegetables                    | Notes                | Type   | Description   |
|--------------------------------------|----------------------|--------|---|
| <b>Spineless Perfection Zucchini</b> | Green                | Annual | Dark green zucchini, the spineless plant figure makes harvesting easy. These zucchinis can be expected to grow between 6-8" in length.                |
| <b>Marketmore 76 Cucumber</b>        | Slicing              | Annual | Productive, dark green, uniform 8-9" long slicing cucumbers.  |
| <b>Little Leaf Pickling Cucumber</b> | Pickling             | Annual | The gold standard for pickling cucumbers! Can be harvested large or small. Prolific and disease resistant.  |
| <b>Mouse Melons</b>                  | Vining               | Annual | Also called Mexican Sour Gherkin or Cucamelons, these climbers produce fruits that look like tiny watermelons and taste like sweet, lemony cucumbers. |
| <b>Sugar Baby Watermelon</b>         | Super sweet Heirloom | Annual | Widely adapted heirloom variety. Solid, dark green on the outside with a bright red, firm flesh. 8 to 10 pound fruit.                                 |
| <b>Aunt Molly Ground Cherry</b>      | Yellow               | Annual | Small, sweet fruits with a papery husk. Drops to the ground when ripe! Great in salads, pies or preserves.  |
| <b>Toma Verde Tomatillo</b>          | Green                | Annual | Early-maturing, large, flat-round green fruits. Use in salsa. Need at least two for good pollination.   |
| <b>Purple Tomatillo</b>              | Purple               | Annual | Prolific producer of large violet fruits that are sweeter than their green counterparts. Need two for best yield.                                     |

| Eggplant              | Notes            | Type   | Description  |
|-----------------------|------------------|--------|--|
| <b>Fairytale</b>      | Purple and White | Annual | Mini eggplant with pretty stripes, can be harvested in clusters. No bitterness, few seeds                                      |
| <b>Orient Express</b> | Asian            | Annual | Thin, 8-10" glossy black fruits. Very few seeds. Very productive.  |
| <b>Galine</b>         | Italian          | Annual | Very glossy, uniform, black fruits are 6-7" long by 3-4" in diameter. Strong plants produce early, firm fruits. High yielding. |
| <b>Ping Tung Long</b> | Asian            | Annual | Long Taiwanese variety has very tender skin and flesh and few seeds. Light purple.   |

**\* Best container varieties**

| Bell Peppers                    | Notes  | Type     | Description   |
|---------------------------------|--------|----------|---|
| <b>Ninja</b>                    | Red    | Hybrid   | Good disease resistance.  |
| <b>Golden California Wonder</b> | Yellow | Heirloom | Sweet, thick-fleshed bell peppers ripen from green to golden-yellow to deep orange. Sets well in cool conditions. |

| Sweet Peppers         | Notes         | Type            | Description   |
|-----------------------|---------------|-----------------|---|
| <b>Habanada</b>       | Orange        | Open Pollinated | Exceptional snacking peppers have all of the fruity and floral notes of the habanero without any of the spice |
| <b>Jimmy Nardello</b> | Red           | Heirloom        | Beloved Italian heirloom has rich flavor and a thin skin perfect for frying or drying                         |
| <b>Carmen</b>         | Red           | Hybrid          | Corno di Toro Italian red pepper is sweet and great for roasting. 6" in length, 2.5" in width.                |
| <b>Picnic</b>         | Red or Orange | Open Pollinated | Small, unbelievably sweet, and crunchy- perfect for snacking.   |
| <b>Shishito</b>       | Green         | Hybrid          | Mild, thin-walled Japanese peppers great for tempura or stir frying.  |
| <b>Escamillo</b>      | Yellow        | Hybrid          | Great companion to Carmen, super sweet Italian roasting pepper  |
| <b>Sweet Banana</b>   | Green-Orange  | Heirloom        | Classic pepper used for salads, pickling, and stuffing.   |

| Hot Peppers          | Notes       | Type            | Description  |
|----------------------|-------------|-----------------|--|
| <b>Fish Pepper</b>   | Medium      | Heirloom        | Baltimore heirloom is traditionally used to flavor seafood dishes. Beautiful variegated foliage and small, striped peppers with a lot of heat and flavor.  |
| <b>Jalapeno</b>      | Medium      | Hybrid          | Classic hot pepper, great raw and cooked for salsas, pickles and more.   |
| <b>Poblano</b>       | Mild        | Hybrid          | Large fruit, adapts to a variety of growing conditions. Great for stuffing. Also called ancho when fully ripened and dried   |
| <b>Big Jim Hatch</b> | Mild/Medium | Open Pollinated | New Mexican variety can grow to be up to 12" in length and 3" in width. Bright green peppers turn red as they mature and have excellent flavor to make these peppers extremely versatile. Medium heat - 2000 - 4000 Scoville |

| Hot Peppers            | Notes  | Type            | Description  |
|------------------------|--------|-----------------|--|
| Scotch Bonnet*         | Hot    | Open Pollinated | Caribbean classic with fiery heat and a fruity flavor. Compact plants are very prolific.   |
| Flaming Flare Fresno   | Hot    | Hybrid          | Sweet, mildly hot pepper for fresh eating, pickling, stir fries and hot sauce.   |
| Hot Banana             | Medium | Hybrid          | Also called Hungarian Hot Wax. Smooth, thick-walled fruits are great for pickling. Well adapted for cold weather.  |
| Jigsaw *               | Hot    | Heirloom        | Beautiful variegated foliage in shades of cream, violet, and green with small, hot fruits that ripen to deep purple. Compact plants.   |
| Mariano's Calabrian    | Hot    | PA Heirloom     | Pittsburgh Italian heirloom! Prolific, hot and flavorful peppers great for chili paste or powder.  |
| Biquinho*              | Mild   | Heirloom        | "Little Beak" peppers hail from Brazil. These small yellow peppers harbor a slightly tart flavor with a hint of heat. Can be enjoyed raw or cooked, but is famous for being extremely flavorful when pickled in vinegar. |
| Trinidad Perfume Spice | Mild   | Heirloom        | Yellow lantern-shaped pods have a complex, tropical flavor and mild heat. Great in salsas and stews.   |
| Serrano                | Medium | Hybrid          | High yields of dark green peppers over a long fruiting season.   |
| Thai Hot*              | Hot    |                 | Fruity, very spicy, compact plants can produce 200 peppers. They freeze & dry beautifully.   |

#### Heirloom Tomatoes

| Red                 | Notes                   | Type         | Description   |
|---------------------|-------------------------|--------------|---|
| Costoluto Genevese  | Deeply lobed            | Large Slicer | Old Italian fluted variety known for intensely flavorful, deep red flesh. Great for eating fresh or preserving.                         |
| Mountain Princess * | WV Heirloom Determinate | Container    | Bright red and mildly flavored, the 8 ounce fruit is round, smooth and solid. A good short season variety that is also very productive. |
| Delicious           | PA heirloom             | Large Slicer | Large, meaty tomatoes are often blemish free.   |
| Yellow              | Notes                   | Type         | Description   |
| Yellow Brandywine   |                         | Beefsteak    | Sweet and rich tasting golden heirloom with low acidity and a smooth outer skin. Usually grows to be 16 oz.                             |

### Heirloom Tomatoes

| Yellow                | Notes                        | Type         | Description   |
|-----------------------|------------------------------|--------------|---|
| Pork Chop             | Striped                      | Beefsteak    | True yellow with golden stripes, these beefsteaks have a sweet tomato flavor with a hint of citrus.   |
| Pineapple             | Red and Yellow               | Large Slicer | Medium to large, variably ribbed-shoulder tomatoes are shaded yellow and red. Marbled interior. Fruity flavor and smooth texture.   |
| Orange                | Notes                        | Type         | Description   |
| Jaune Flamme          |                              | Salad        | Staff favorite! Clusters of deep orange salad tomatoes are juicy and perfect for eating fresh.  |
| Kellogg's Breakfast   | WV Heirloom                  | Beefsteak    | Meaty tomatoes with a very sweet, fruity flavor. Dependable and prolific. Average 1lb fruit   |
| Pink                  | Notes                        | Type         | Description   |
| Arkansas Traveler     |                              | Salad        | Deep pink when ripe, 6-8 oz. Balance of sweetness and tartness. Stands as one of the very best heirloom varieties. Does well in poor soil. Disease-resistant, indeterminate vines. *We save these seeds!* |
| Rose de Berne         |                              | Small slicer | 4-to 8-oz fruit are a rose-pink color and have an excellent sweet flavor.   |
| Brandywine            |                              | Beefsteak    | The classic heirloom tomato. Large fruits, often over 1 lb., have a deep pink skin and smooth red flesh. A medium-tall, potato-leaf plant.  |
| Mortgage Lifter       | WV Heirloom                  | Large slicer | Average 2 1/2 lb. Consistently wins taste-tests for its rich, sweet taste.  |
| Pink Berkeley Tie Dye | Dark pink with green stripes | Large slicer | Compact plants produce beautiful 8-12 ounce fruit with a very sweet, rich tomato flavor.  |
| Black                 | Notes                        | Type         | Description   |
| Cherokee Purple       |                              | Slicer       | Rich flavor and texture make this a favorite among heirloom growers. Interior ranges from purple-brown to green. Relatively short vines. Indeterminate.   |
| Black Prince          |                              | Small slicer | Medium sized fruit with coloring from red to black. Vigorous vines. Delicious smoky-sweet flavor. 3-5oz fruit. Indeterminate.   |
| Tasmanian Chocolate*  | Container                    | Slicer       | Dwarf Tomato Project. Delicious tomatoes, great for containers. 4-6oz fruits. Determinate.  |

### Heirloom Tomatoes

| Green                    | Notes         | Type         | Description   |
|--------------------------|---------------|--------------|---|
| Green Zebra              | Striped Green | Small slicer | High-yielding. Indeterminate. Produce 1.5-2.5" fruits. Emerald green skin, dark green vertical stripes, and gently flavorful green flesh. |
| Aunt Ruby's German Green |               | Beefsteak    | Very large, neon green when ripe, super delicious!  |

### Hybrid Tomatoes

| Red             | Notes             | Type         | Description  |
|-----------------|-------------------|--------------|--|
| Big Beef Plus   | Disease resistant | Large Slicer | An even better Big Beef. Large, globe shaped fruits that ripen early for their size. Lots of disease resistance. Great flavor! |
| New Girl        |                   | Small Slicer | Early semi-determinate. Fruits resist over-ripening. Require staking. Disease resistant.                                       |
| Mountain Merit* | determinate       | Slicer       | Compact plants produce 8-10oz fruit with good disease resistance. Good for containers.   |

### CHERRY/GRAPE

| Red               | Notes     | Type   | Description  |
|-------------------|-----------|--------|--|
| Supersweet 100    |           | Hybrid | Hybrid Indeterminate. Resistant to verticillium wilt, fusarium wilt, and nematodes. Produces all season long   |
| Juliet            |           | Hybrid | Cherry tomato sized plum tomato. Delicious tomato flavor for salads, salsa, and pasta sauce. Very disease resistant.   |
| Tidy Treats *     | Container | Hybrid | High-yielding, compact cherry tomatoes. Dwarf indeterminate.   |
| Yellow            | Notes     | Type   | Description  |
| Sunrise Bumblebee |           | OP     | Large, oblong yellow cherry with red stripes. Sweet and tangy flavor.  |
| Orange            | Notes     | Type   | Description  |
| Sun Gold          |           | Hybrid | Exceptionally sweet, tangerine cherry tomatoes. Vigorous plants start yielding early and bear through the season but have a tendency to split. Indeterminate |

|                           |               |                 |  |
|---------------------------|---------------|-----------------|--|
| <b>Honeydrop</b>          |               | Open Pollinated | Abundant and less prone to cracking than Sun Gold, very sweet and complex. Won our taste test at Shiloh Farm!            |
| <b>Orange</b>             | <b>Notes</b>  | <b>Type</b>     | <b>Description</b>   |
| <b>Gold Nugget*</b>       | Determinate   | Heirloom        | Compact plants yield prolific amounts of small, sweet fruits excellent for snacking.                                     |
| <b>Black</b>              | <b>Notes</b>  | <b>Type</b>     | <b>Description</b>   |
| <b>Black Cherry</b>       | Purple        | Heirloom        | Yields plentiful clusters of round tomatoes that are deep purplish brown. Flavor is juicy and sweet. Indeterminate.      |
| <b>Indigo Cherry Drop</b> | Black and Red | Open Pollinated | Vigorous indeterminate with striking deep purple tops and red flesh. Large clusters of 1-2 oz fruit.                     |
| <b>Pink</b>               | <b>Notes</b>  | <b>Type</b>     | <b>Description</b>   |
| <b>Sunpeach</b>           | Pink          | Hybrid          | Sister variety to Sun Gold - not as tangy and acidic. Pink with very sweet flavor. High yielding, resistant to cracking. |
| <b>Pink Tiger</b>         | Striped       | Open pollinated | Elongated pink tomato with orange striping. Won our taste test at Shiloh Farm!   |

#### PASTE

| <b>Red</b>         | <b>Notes</b>                    | <b>Type</b>      | <b>Description</b>   |
|--------------------|---------------------------------|------------------|--|
| <b>Roma</b>        | Determinate                     | Hybrid           | Meaty tomato, good in sauces and for dicing. Great disease resistant.  |
| <b>San Marzano</b> | Indeterminate, resists cracking | Italian Heirloom | Classic paste tomato good for preserving. The large plants produce loads of tomatoes late in the season and need to be staked. Slightly larger than Roma |

| <b>Seed Potatoes</b> | <b>Notes</b>     | <b>Type</b>    | <b>Description</b>  |
|----------------------|------------------|----------------|---|
| <b>Chieftain</b>     | Early-Mid Season | Red            | High yielding, red skin & white flesh, stores well.                   |
| <b>Yukon Gem</b>     | Mid Season       | Gold           | Improved Yukon Gold for disease resistance, very high yield potential |
| <b>Amarosa</b>       | Mid Season       | Red Fingerling | Ideal for baking, frying, or boiling.                                 |
