

## At the Garden Resource Center

**147 PUTNAM STREET  
PITTSBURGH, PA**

Join the Allegheny County Conservation District and partners on March 18th at Grow Pittsburgh's Garden Resource Center to learn why soil lead contamination is a serious problem in Pittsburgh. Bring a properly collected, dry soil sample from your yard or garden and we will screen it for lead and other heavy metals free of charge. Staff will be on hand to answer questions and provide information.

# FREE SOIL LEAD SCREENING

*with soil contamination and  
remediation information*
